

# SircleBind™ X6

## 3:1 & 2:1 Wire Binding Machine

The SircleBind X6 is a rugged multifunctional binding machine capable of accommodating both 3:1 and 2:1 twin loop wire. This machine can punch up to 20 sheets (20lb paper) at a time and can bind using up to a 1-1/4" wire. This all metal construction machine features a unique wire holder making paper threading more efficient, a micro-adjust wire closer to ensure precision closing with each bind, an edge guide for proper paper alignment, a two-step margin depth control for binding larger size documents, and a waste paper drawer that neatly collects punched paper scraps.

### KEY FEATURES:

Dual punch pattern accommodates both 3:1 wire and 2:1 wire

Unique hands-free wire hanger design allows for increased efficiency

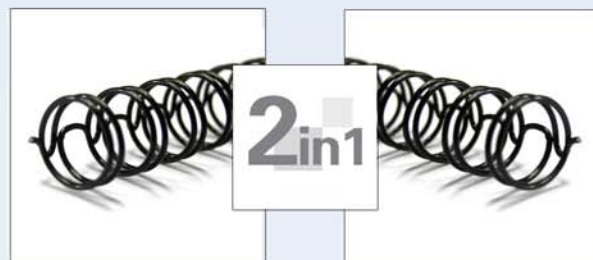

Wire measuring guide assists in determining wire size accurately

Micro-adjust wire closing guide allows for precision in wire closing

# SircleBind™ X5

## 3:1 & 2:1 Wire Binding Machine

### Specifications:
